

**VAN'S CLUB 16th PRIVATE FRENCH FLY-IN OF BUILDERS AND PILOTS OF
« VAN'S »**

16th private fly-in of builders and pilots of VANS AIRCRAFT

Organised by the VAN'S CLUB DE FRANCE

June 4, 5, 6, 2021

at Biscarrosse-Parentis (LFBS)

This year we selected an airport in the region of “the Landes”.

It is located in Biscarrosse, 40 Km south of Arcachon and the famous « Dune du Pilat » (Pilat Dune) . We hope to welcome you there under a bright sun as was the case last year in Pont-Sur-Yonne.

Our good friends and VCF members Catherine and Bernard Vorreux, proud owners of a RV6 in Biscarrosse, will be organising the event this year. Bernard is the DGAC local airport ‘manager of air traffic’, a necessary position due to the presence of the ENAC national flight school who is the main user of the airport.

The gathering will take place near the control tower, in the ENAC building which includes hangar, parking space, and amphitheatre for our Annual General Meeting. The parking space is hard surface without any provision to tie down the airplanes, but a separate grass area will be available nearby depending on the weather.

The seaplane museum in the nearby city of Biscarrosse, as well as the Dune du Pilat, will provide a good opportunity for those looking for a historical or touristy

Arrivals/Departures: It will be possible to arrive as soon as Friday Morning, and depart at any time. We do not anticipate any restrictions. However as usual you must check NOTAMS and all appropriate documentation for Biscarrosse. The aerodrome is located under the military zone of Cazaux.

Shortly before our fly-in we will publish a detailed announcement on all Biscarrosse aerodrome procedures.

Air Traffic Control Services are available during the week (see VAC approach plate) in French and English.

During the week-end air traffic communications are done in auto-information on 118.95 Mhz, in French language preferably.

Please note the following points:

- Biscarrosse airport is home to various air activities: airplanes, ultralights, seaplanes, gliders (winch), ...). Make early radio calls and be vigilant. Consider that the seaplane base is active from surface to 500'.
- Organisers decline any responsibility for non respect of the rules of the air.
- The region (communauté de communes des Grands Lacs) approves and supports our fly-in

Customs: Biscarrosse is NOT a Port of Entry. Crew flying from abroad (outside Schengen area) must clear customs at an approved airport before proceeding.

Runways: 3 runways: one hard surface 09/27, 800x20 Meters and two grass runways: 09/27 1300x60 M and 14/32 700M long.

Fuel: 100LL available by TOTAL automatic station. Payment by cheque or credit card with Bernard Vorreux during the whole week-end. We advise to refuel upon arrival.

Airplane parking: the parking area is vast and the capacity that is allocated for our fly-in will be sufficient. Plan to take chocks and tie downs with you.

Car Parking: A large parking is available near the TWR for anyone driving in.

Registration: After parking your plane/car, pilots and passengers are required to register with the organisers and get their lunch bracelets.

Payment will be possible in cash or French Cheques in EURO . **Foreign Crews please carry EURO** as there is no ATM/ Forex bureau on the airfield. Baggage can be stored in a secured room until transfer to the various hotels. Pilots who wish to present their airplane to the jury should let the organisers know during registration.

Landing / Parking fee: There is a landing fee (only one for the whole week-end and it is INCLUDED with your participation fee.

Participation cost : A participation fee of **15 Euro per airplane** (including landing fee) or **10 Euro per car** is to be paid to partially balance the high cost of the fly-in.

WIFI: available and free in the hangar

Weather: You will be able to check weather online using WIFI. Weather updates will be placarded on Sunday morning.
