

Pontailac beach with the casino

This year, we invite you to meet for a convivial moment at the **ROYAN-Méditerranée aerodrome (LFCY)** to discover a highly touristic region, on the Gironde estuary, in the famous seaside resort of Royan. The airfield, which is geared towards light aviation, is located a short distance from the bustling city and its beaches. It has the restaurant **L'Escale**, with terrace directly overlooking the runway. We will be able to eat there on **Saturday and Sunday lunchtime, on prior reservation**, with payment of the meal with the restaurant. The restaurant bar will be accessible during the day. **For Saturday evening**, we have a special moment in store for you with the **gala dinner in the original Casino Barrière** overlooking the beach of **Pontailac**, with an aperitif on the private terrace, directly above the beach. The daring will even be able to enjoy the many activities of the Casino. **(Be careful for access to the games, an passport is required).**

**As places are limited, we are holding registrations in the order of arrival of registrations, with priority given to VCF members who are up to date with their 2025 membership fee.**

The hotels on offer are just a short walk away. This will allow everyone to enjoy this evening independently.

As for the airfield, we will have a large grass apron and a room for check-ins and the VCF shop, at the foot of the tower. Refuelling is provided by a TOTAL AIR station with a TOTAL H24 card. Payments possible with credit card during the AFIS hours of service.

We invite you to consult the VAC map [https://www.sia.aviation-civile.gouv.fr/dvd/eAIP\\_17\\_APR\\_2025/Atlas-VAC/PDF\\_AIPparSSection/VAC/AD/AD-2.LFCY.pdf](https://www.sia.aviation-civile.gouv.fr/dvd/eAIP_17_APR_2025/Atlas-VAC/PDF_AIPparSSection/VAC/AD/AD-2.LFCY.pdf)

and the ICARUS map on the FFA website: (<https://www.ffa-aero.fr/>)

The main points to remember to use the Royan aerodrome safely:

**Use entry points**

**Radio Communications ONLY in French with AFIS or A/A (You must commit to it)**

**No vertical installation due to high airdrop activity.**

**Respect the defined lap of the runway. Use only the hard surface runway.**

**Wearing the yellow vest in the parking lot and tarmac.**

Use Alpha 1 for engine check and checklist when runway 10 in use.

Caution at the Alpha and Bravo holding points before entering due to the profile of the runway.
